PRESENTACIÓN

Como parte de las labores de planeación relacionadas con las funciones de docencia, investigación y difusión de la cultura, las autoridades educativas federales y estatales participan activamente en el análisis y evaluación de los diversos aspectos relacionados con la educación superior del país, así como en la definición de políticas públicas sobre la materia.

Por otro lado, la Subsecretaría de Educación Superior (SES) de la Secretaría de Educación Pública (SEP), por conducto de la Dirección General de Educación Superior Universitaria (DGESU), encabeza un proyecto tendiente a definir las bases para una mejor coordinación y desarrollo de la educación superior, con la participación de las instituciones de educación superior (IES) y con las autoridades educativas de las entidades federativas, a fin de responder con mayor pertinencia y oportunidad a las prioridades nacionales, regionales y estatales en la materia.

Los objetivos específicos de este proyecto son:

- ❖ Apoyar con información estadística pertinente para los procesos de planeación estratégica de la educación superior, a partir de una perspectiva integral que considere la situación prevaleciente a nivel nacional, regional, en las entidades federativas y en las instituciones de educación superior;
- ❖ Sentar las bases informativas para dar seguimiento y evaluar las funciones básicas de docencia, investigación y difusión de la cultura, en los distintos ámbitos;
- ❖ Presentar información estadística relevante para estudiar el contexto socioeconómico en que se desarrollan las actividades de las IES y de la educación superior en su conjunto;
- ❖ Participar con las autoridades educativas en el diseño de una tipología de instituciones de educación superior, que permita agrupar entes similares en términos de tamaño, niveles escolares que atienden, carreras y programas que ofrecen, áreas de conocimiento que cubren, entre otros;
- ❖ Contar con un panorama actualizado del estado de la educación superior a nivel nacional, regional y de las entidades federativas, en apoyo de las tareas de seguimiento, evaluación y crecimiento futuro, tanto de las IES, como del Sistema de Educación Superior en su conjunto.
